### **Medical Referral Service Report**

**Date of Issue: 27/07/2026**

#### **Executive Summary**

As part of Happy Earth Association's commitment to promoting equitable access to healthcare for vulnerable communities, the Association continues to implement its Medical Referral Service by establishing strategic partnerships with physicians and medical laboratories. The initiative aims to provide specialized healthcare services free of charge or at reduced cost for beneficiaries.

The Association places a particular emphasis on women's health, as women represented the largest proportion of beneficiaries, especially in obstetrics and gynecology services, in addition to internal medicine, mental health, and laboratory diagnostics. This initiative has significantly reduced the financial burden on families, encouraged early disease detection, and improved access to quality healthcare services.

During the reporting period, the Association successfully facilitated 75 medical referrals across multiple medical specialties while also providing free laboratory tests and discounted diagnostic services. These achievements reflect the Association's commitment to developing sustainable healthcare partnerships and maximizing its humanitarian impact within the community.

#### **Introductions :**

Believing that healthcare is a fundamental human right, Happy Earth Association implements the Medical Referral Service as one of its key humanitarian programs. The service aims to facilitate access to specialized healthcare while reducing the financial burden faced by low-income and vulnerable families.

The program is built upon partnerships with physicians and medical laboratories to ensure the delivery of high-quality healthcare services. Special attention is given to women, who constitute the largest group of beneficiaries, ensuring timely access to essential medical care and improving their overall health and well-being.

## **Objectives of the Medical Referral Service:**

- Provide free specialized medical services for vulnerable beneficiaries.
- Promote women's health and improve their access to specialized healthcare.
- Reduce the financial burden on families through free or subsidized medical services.
- Establish sustainable partnerships with physicians, laboratories, and healthcare institutions.
- Promote early disease detection and preventive healthcare.
- Improve beneficiaries' quality of life by ensuring access to appropriate medical services.

## **Implemented Medical Partnerships :**

### **1. Obstetrics and Gynecology :**

As part of Happy Earth Association's commitment to women's health, a partnership was established with Dr. Elias Nisan, Specialist in Obstetrics and Gynecology, on 20–21 July 2026 to provide specialized healthcare services for female beneficiaries.

During the implementation of the program, the Association referred 20 medical cases to the physician, enabling women to receive medical consultations, examinations, and follow-up care while promoting preventive healthcare and early diagnosis.

### **2. Internal Medicine and Cardiology :**

The Association partnered with Dr. Jalal Saeed, Specialist in Internal Medicine and Cardiology, on 25–26 July 2026 to provide specialized medical consultations and healthcare services.

A total of 15 medical referrals were made, Improving access to diagnosis, disease management, and appropriate treatment for beneficiaries.

### **3. Laboratory Services :**

Happy Earth Association signed a cooperation agreement with Kalash Laboratory to improve beneficiaries' access to essential laboratory services. The agreement included:

- Free diabetes screening tests.
- Free cancer screening tests.
- A 30% discount on all other laboratory tests from the date of the agreement until the end of July.

This partnership strengthened early detection efforts and encouraged beneficiaries, particularly women, to undergo regular medical examinations.

#### **4. Mental Health Services :**

Recognizing mental health as an essential component of overall well-being, Happy Land Association partnered with Dr. Alan Khalil, Specialist in Psychiatry, on 02–03 August 2026.

The Association referred 20 beneficiaries for psychiatric evaluation, counseling, and treatment, contributing to improved mental well-being and quality of life.

#### **5. Speech and Language Therapy :**

As part of Happy Land Association's commitment to supporting children and individuals with speech, language, and communication disorders, the Association partnered with Dr. Barzan Suleiman, Specialist in Speech and Language Therapy, to provide specialized assessment, rehabilitation, and therapeutic services.

The Association has referred 20 medical cases to Dr. Barzan Suleiman, and referrals are ongoing. This reflects the Association's commitment to ensuring continuous access to rehabilitation services that enhance communication skills, social inclusion, educational opportunities, and the overall quality of life of beneficiaries.

### **Key Achievements :**

**The Medical Referral Service achieved several significant outcomes, including:**

- Facilitating 75 medical referrals across multiple specialties.
- Providing free specialized healthcare services for beneficiaries.
- Offering free diabetes and cancer screening tests.
- Providing discounted laboratory services.
- Expanding partnerships with physicians and healthcare providers.
- Improving women's access to specialized healthcare services.
- Reducing the financial burden on vulnerable families.

### **Impact on Women**

Women represented the majority of beneficiaries, reflecting the Association's strong commitment to promoting women's health as a cornerstone of community development.

**The program contributed to:**

- Improving women's access to obstetric and gynecological services.

- Encouraging regular medical check-ups and early disease detection.
- Expanding access to mental health services for women.
- Reducing financial barriers to healthcare.
- Increasing health awareness among women and their families.

### Recommendations :

- Expand partnerships to include additional medical specialties.
- Increase the number of free medical referrals for vulnerable groups.
- Continue strengthening cooperation with laboratories and healthcare institutions.
- Develop health awareness programs with a focus on women's health and disease prevention.
- Engage additional partners and donors to ensure the sustainability of the program.

## **Conclusion :**

Happy Earth Association remains committed to strengthening its Medical Referral Service as a key humanitarian initiative that improves healthcare access for vulnerable communities, with a particular focus on women. The Association will continue expanding its medical partnerships and enhancing service quality to achieve a sustainable and lasting positive impact on the community.
